	.045		.045		
	.062 (± .003)	.062 (± .003)	.062 (± .003)		.062 (± .015)
	.090	.090			
	.125 (± .005)	.125 (± .005)	.125 (± .005)		.125 .187 .250 (± .015)

Rulon® is etched on one side for normal service with 2-step epoxy system.

Standard width 12", thinner widths available for additional cutting charge.

Rulon® is available in continuous rolls or cut to length.

Non-standard sizes of Rulon® available to .250" thick.

Laminate composite is polyester material, impregnated with thermal setting resins.

Material is available in standard sheets 24 x 48" (larger sheets by request), max 2".

Bonding of all Rulon® and laminate composite material to steel, aluminum and other substrates processed at our Troy plant. Other PTFE composites available for bonding:

Rulon® F, Glass filled, Virgin PTFE Metaloplast

Call Welker for high temp bonding applications.
